

## GOVERNOR GIVES NO HEED

The assistant physician, Dr. D. H. Smith, says that while having no political pull to use his expression, he was "very, very, very" sure that the \$500,000 was not his. "I don't want the money; I want a position," he said.

Topeka, Kan., June 2, 1936.  
 Mr. A. J. Hoppa,  
 Dear Madam—Your letter where you  
 make inquiry concerning the condition of  
 Hannah McKeel I'll say that she is very  
 comfortable and getting along quite well  
 in regard to what Mr. Rafeety told you  
 in regard to Hannah will partially trans-  
 late. She seems to be well most of the time  
 but there is times when she is somewhat  
 disturbed. She is not violent nor does  
 she give any particular trouble at the  
 times when she is disturbed, but as a be-  
 liever in the Bible I believe that she is  
 possessed. I would term a sane person by any  
 means. She is very agreeable and does  
 not seem to give fine attendants or pa-  
 tients any trouble. With the exception of  
 the grip she had three or four times in  
 the past, she is quite well physically. Very re-  
 spectfully,  
 Doc T. W. S.

 Dear Sir—In reply to your letter of Sep-

London, Oct. 2.—The Field this week devotes its leading article to contrasting British and American race riding, and for the first time in its history publishes something on American racing. The Field says:

"There was a time when Englishmen thought themselves supreme in everything concerning the horse, but that idea is being very surely knocked on the head, for American horses have won some of the best races in England. Since we have among us to show our jockeys he has a style apparently superior to theirs."

The Field characterizes as absurd and unsupported the published suggestion that owners should boycott Sloane, as he was "too good for British and sides who would Englishmen have said if similar treatment had been meted out to English jockeys on American race courses."

In conclusion the Field remarks: "Not

After convalescence returned to his home. Orders were given, to his knowledge, for prompt measures looking to the elimination of the typhoid. It broke out, but the orders had not been obeyed. He knew of more cases in which the sinks were to the last within twenty feet of the kitchens and in the cases of the Porto Rican regiments the sinks were crowded near the kitchens, when there was a quarter of a mile of open field back of them. He thought that it may be a mistake to locate so many men in the same place. The typhoid epidemic had been honored promptly. I got everything I asked for from a stockpile up, and was turned down on nothing less said.

FROM CAMP GUERA LIBRE

London, Oct. 8.—The Times correspondent at Paris telegraphed today that the striking laborers had just rejected the municipal council's proposals looking to a settlement of the strike and that nearly all the unions and the men at work had refused to accept part of the conditions. A source of reaction here has decided to join in the strike.

Paris, Oct. 8.—The situation is improving today. Some of the workers are returning to work at the excavation grounds and the strike is lessening.

Chap. Meade, Middletown, Pa., Oct. 8.—Lieutenant Morgan, Twenty-second Kansas, charged with participating in the desecration of Confederate graves at Manassas last August, was acquitted by the army court martial and has been restored to the service.

SUSPECTS IN ARKANSAS

The attorneys on both sides summed up the evidence and made their arguments. There were no sensational features developed. The court took the case under advisement. According to the custom in court martial trials the finding of the court martial will be sent, with the recommendations, to the authorities at Washington, who after reviewing the case, will make public the decision reached.

**Governor Smith's Recovery Nears**  
Los Angeles, Cal., Oct. 8.—Governor Smith, of the Soldiers' Home, Santa Monica, is improving steadily and it is now probable that he will, in time, be able to return to his duties. He was recently freed with murderous intent by Albert Bradley, an inmate of the home, will not return to death. He passed a painful night. Bradley is sick with nervous prostration.
